any follow-up questions**

WORRIED ABOUT GETTING THE FLU?

You don't want to get sick, but you don't want to get a Flu vaccination and risk the side-effects. You want a way to **prevent** the flu.

Is there another option?

YES ~ Influenzium 2017-2018 is a **homeopathic flu remedy** that is updated each year based on the flu strains predicted by the World Health Organization (WHO). It is created to stimulate your body's own defense system and strengthen your immune system against the current flu viruses **naturally**.
